

# **Exams schedule MSc Remote Sensing and Geoinformatics**

## ***Winter term 2019/2020***

Last update: 2019-11-08

- Seminar Topics of Image Analysis: by individual arrangement
- Satellite Climatology: Module exam in summer term (or by individual arrangement)
- Numerical Mathematics: by individual arrangement
- Passive Remote Sensing of Atmospheric Temperature and Composition: by individual arrangement
- Atmospheric Radiation: by individual arrangement
- Advanced Topics in Computer Vision: by individual arrangement
- Fundamentals of Environmental Geodesy: Module exam in summer term (or by individual arrangement)
- GeoDB: 2020-02-13 10:00 - 17:00 (oral examination, office Prof. Breunig)
- Geoinformatics A: Module exam in summer term (or by individual arrangement)
- Methods of Remote Sensing / Image Processing and Computer Vision: Module exam in summer term
